Profile

Dynamic Machine Learning Engineer with 3.7 years of experience specializing in developing and deploying state-of-the-art AI and Generative AI solutions, including NLP, computer vision, and RAG chatbots. Extensive experience in model fine-tuning, optimizing neural network architectures, and leveraging OpenAI and other foundational LLMs. Looking for a challenging role to innovate in Generative AI, Foundation Models, and Applied ML.

Skills

Languages: Python, HTML/CSS, JavaScript

Developer Tools: VS Code, PyCharm

Frameworks: Linux, GitHub, Flask, Docker, AWS, GCP, Azure AI Services

Machine Learning Python Packages: Numpy, Pandas, SciPy, Scikit-Learn, Tensorflow, Keras, Pytorch

NLP Packages: NLTK, Spacy, AllenNlp, GenSim, Transformers

Vector database: Milvus, FAISS

Soft Skills: Communication, Problem Solving, Research, Teamwork

Experience

EXL

December 2023 – Present

Business Analyst

Noida, Haryana

- Leading the development of a modular AI platform, allowing customers to utilize standalone services like embedding, chunking, and retrieval.
- Implemented advanced data preprocessing and feature engineering techniques, ensuring high-quality inputs for model training and deployment.
- Developed and improved chatbot solutions, increasing accuracy and reducing response times significantly.
- Applied cutting-edge NLP techniques to analyze customer datasets, driving insights and informing chatbot design.
- Created real-time speech-to-text transcription service for call recordings and webinars using Azure Speech-to-Text.
- Utilized Azure AI Search service to create a RAG chatbot based on provided documents, optimizing response accuracy.

Katonic.ai

August 2023 – December 2023

AI Generative Engineer

Gurgaon, Haryana

- Developed a Retrieval-Augmented Generation (RAG) chatbot architecture utilizing OpenAI APIs, Faiss vector stores, and LangChain, enhancing information retrieval and accuracy by 25%.
- Optimized chunking and embedding techniques, improving the quality of retrieved data for a smoother, contextually accurate dialogue experience.
- Implemented LLM-based indexing using Milvus and Llama Index for vector search, reducing latency and enhancing retrieval precision in real-time applications.
- Collaborated on fine-tuning LLM models (Falcon, Mistral, LLaMA-2) for customized question-answering tasks, focusing on domain-specific data integration and enhanced contextual relevance.

Tata Consultancy Services

August 2021 – August 2023

ML Engineer

Gurgaon, Haryana

- * Developed an object detection pipeline with Detectron and ResNet-50, identifying logos and objects on packaging, deployed as part of a production-grade computer vision system.
- * Built a classification model to detect offensive content and compliance for media scripts using NLP techniques, enhancing content moderation for entertainment industry clients.
- * Implemented a version comparison API for script management, streamlining content tracking and alignment with production standards.
- * Integrated feedback-driven reinforcement learning loops to update model parameters, improving adaptability and user relevance across various NLP and CV projects.
- * Reduced inference time by 25% on large-scale BERT models through distributed multi-GPU training and optimization techniques on PyTorch and TensorFlow.
- * Fine-tuned NER models to detect product mentions, aiding prop teams in timely provisioning, with ongoing user feedback for continuous model improvement.

Education

Deenbandhu Chhotu Ram University of Science and Technology <i>Bachelor of Technology in Electronics and Communication Engineering</i>	Aug. 2017 – July 2021 <i>Sonepat, Haryana</i>
Jawahar Navodaya Vidyalaya <i>Higher senior secondary</i>	2016 <i>Sonepat, Haryana</i>

Certificates

AWS Certified Cloud Practitioner <i>Feb 10, 2023</i>	AWS
Deep Learning, CV, NLP Course <i>4th July 2023</i>	iNeuron <i>[View Certificate]</i>
Generative AI with Large Language Models <i>21st Nov 2023</i>	Coursera <i>[View Certificate]</i>
Databricks Certified Generative AI Engineer Associate <i>7th Dec 2024</i>	Databricks <i>[View Certificate]</i>

Achievements

Appreciated by Vice President (LinkedIn Public Recognition) <i>Received a public appreciation post on LinkedIn from the Vice President for outstanding contributions and impactful</i>
Quarterly “The Genius Award” Winner <i>Recognized as the top performer in the quarter for innovation, problem-solving, and consistent high-impact delivery</i>
